II Latin-American Symposium on Neuromonitoring and Neurocritical care

UNIBE

UNIBE
UNIVERSIDAD DE IBEROAMERICA

Facultad de Medicina

Main Goal:

Participants will learn theories and techniques for Neurocritical Care and Neuromonitoring.

Intendeb to:

Intensive care physicians, neurologists, anesthesiologists, neurosurgeons, internists, emergency medicine doctors residents and fellows, general practitioners, nurses and paramedics.

Hotel: Accomodations Contact:

jcamacho@barcelocr.com

Faculty:

Dr. Juan Sahuquillo, *Coordinator of the Neurotraumatology and Neurosurgery Research Unit, Vall d'Hebron University Hospital, Barcelona, Spain.*

Dr. Randall Chesnut, *Department of Neurosurgery, Brain and Spine Injury Service, Harborview Medical Center, University of Washington, USA*

Dr. Kiwon Lee, *Neurological and Neurosurgical Critical Care, Columbia University, USA.*

Dra. Jennifer Ann Frontera, *Assistant Professor, Department of Neurosurgery and Neurology, Mount Sinai School of Medicine, New York, USA.*

Dr. Peter LeRoux, *Department of Neurosurgery Division of Trauma Surgery and Critical Care, University Pennsylvania School of Medicine, Philadelphia - Pennsylvania, USA*

Dr. Edgar Jiménez Masis, *Neurosurgeon Neuroscience Department, Hospital Dr. Rafael A. Calderón Guardia, San José, Costa Rica*

Topics:

- ICP: evidence based answers to common questions.
- ICP / CPP algorithms.
- Status Epilepticus: actual management and monitoring options.
- Acute Spinal Cord Injury.
- ICH Surgical Management.
- Multimodal Neuromonitoring.
- Poor-grade SAH: resuscitation and management.
- Decompressive Craniectomy in hemispheric Infarct, TBI and SAH.
- SjvO₂ Monitoring.
- PbtO₂ monitoring: What really means?
- TCD.
- Does advanced Neuromonitoring make a difference?
- SAH: clipping vs coiling.
- The Motor Trephine Syndrome.
- Advances in endovascular therapies in Stroke.
- Critical care of TBI in the developing world.
- Induced Therapeutic Hypothermia in TBI, stroke and other high Intracranial pressure syndromes (ALF, SAH).

Pre Symposium Activity For Nurses:

“Neuromonitoring and Care of the Neurocritically Ill Curse”.
